Member agrees to use, maintain, and run anti-virus, firewall, browser, anti-spyware, and security software on Member’s device that is updated regularly. Member also agrees to routinely install all new hardware and software patches, or use the automatic update feature when available for all applicable devices through which Member accesses Online Banking and all of Member’s software, including Member’s operating system and application software. St. Mary’s Bank makes no representations or warranties regarding Member’s computer or other access device, software, or the means with which Member accesses Online Banking. St. Mary’s Bank is not responsible for any computer virus, Trojan horse, malware, or related problems that may arise in connection with Member’s use of the internet, compromising Member’s Online Banking Username, Password, or use of Online Banking.

Member Online Banking Access Credentials. Member agrees to use the Services solely for the purpose intended and in accordance with St. Mary’s Bank procedures and agreements (as amended from time to time) which may be applicable to use of the Services and the related Business Accounts. All Online Banking Transactions or inquiries must be initiated by use of Member Username and Password. Member will assign an Online Banking Username and Password to the Business Accounts and to Authorized Business Users that Member designates. All users will be required to change their Password the first time they access the Online Banking service as well as set up additional multi-factor security features. Member may change

Member's and/or Authorized Business Users' Online Banking Password(s) at any time through the Service. We recommend that Member changes Member's and/or Authorized Business Users' Online Banking Password(s) at least every 180 days.

St. Mary's Bank reserves the right to change any or all of the Security Procedures at any time by giving oral or written notice to Member. Member will require authorized persons to create new Passwords at reasonably frequent periods, based on Member's assessment of the security requirements appropriate for the Services utilized by Member. Member agrees to promptly change Passwords and levels of authority in the event of any change in personnel or when reasonably prudent to do so.

Security Procedures. Where required for any Service, Member agrees to utilize any Security Procedures used in connection with any communication between Member and St. Mary's Bank ("Security Procedures"). Security Procedures may include Online Banking Username, Password, and other security precautions implemented or required by St. Mary's Bank. Notwithstanding any such Security Procedures, Member is strictly responsible for establishing and maintaining Member's own procedures to safeguard against unauthorized transmissions or Transactions, and to maintain confidentiality of the Security Procedures, including Member's Online Banking Username, Password, and any related instructions provided by St. Mary's Bank in connection with the Online Banking Service. Should Member's email address, phone number or other communication method used in conjunction with Security Procedures change, Member is required to promptly update the information with St. Mary's Bank either by phone or directly through the Online Banking access.

Authorization and Processing Transaction Requests. Member is responsible for controlling access to the Services and for any limitations placed, by Member, on the Services an authorized person may utilize. The fact that we are, or may be made aware of, or could have discovered, any limitation on access to a Service does not make us obligated to enforce or attempt to enforce any limitation. Member further understands that each Authorized Business User may utilize Services (including but not limited to inquiries, transfers, and account verification) without regard to any restrictions which would otherwise be applicable to a Business Account and Member is solely responsible for its Authorized Business Users' failure to abide with any such restrictions. Member agrees that any arrangements with us to require one or more authorized signatures for transactions involving Member Business Accounts does not apply to transactions using the Services. If a Transaction request or instruction related thereto received by us purports to have been transmitted or authorized by Member in compliance with the Security Procedures, it will be deemed effective as Member request and Member will be obligated to us for such Transaction, even if the Transaction was not actually authorized by Member.

Protection of Credentials. Member is strictly responsible to establish and maintain the procedures to safeguard against unauthorized Transactions. Member will protect the confidentiality and security of Member's Online Banking Username and Password, and not make Member's Online Banking Username and Password available to any unauthorized person. When Member or any Authorized Business User signs on to Online Banking using Member's Password, Member authorize us to follow the instructions we receive relating to Member's Business Accounts and to charge and credit Member's Business Accounts accordingly. Member agrees that the Credit Union will not be responsible for verifying whether a payment order or other communication is originated by an Authorized Business User other than through the verification process contained in the security procedures of the Services.

Member agrees, to the extent allowed by applicable law, that Member will be liable for all Transactions conducted using Member's Online Banking Username and Password, regardless of whether or not such Transactions were authorized in-fact. We may suspend or cancel Member's Online Banking Username even without receiving such notice from Member, if we suspect Member's Online Banking Username is being used in an unauthorized or fraudulent manner.

If Member believes that Member's Username, Password or other security feature has been lost, stolen, misused, or is likely to be misused, or that someone has transferred or may transfer money from Member's Business Account without permission, Member agrees to **immediately** notify St. Mary's Bank's Member Contact Center by phone (see the "How to Contact Us" section for phone number).

St. Mary's Bank recommends that Member limit access to account related function as appropriate; however, each Authorized Business Users may have access to multiple functions. Member assumes any and all responsibility for identifying those individuals who will be authorized to utilize the Services. However, at certain times, some or all of St. Mary's Online Banking may not be available due to system maintenance or reasons beyond the Credit Union's control. These Online Banking and Bill Pay transactions will be treated as singularly authorized no different than any other online banking account.

Business Accounts sharing the same Tax Identification Number ("TIN") are eligible to be accessed by a single Online Banking Username. Be aware, however, that all Business Accounts designated may be accessed and viewed by any party having access to the Username and Password. Member is responsible for establishing his or her own internal security procedures for employees that Member authorizes to use the Services and to prevent unauthorized use by other employees or persons. St. Mary's Bank undertakes no obligation to monitor transactions through Online Banking to determine that such transactions are made on behalf of Member and will treat each transaction using Member Username and Password as authorized by Member.

St. Mary's Bank will act upon the instructions of any authorized signer with respect to changes to the Online Banking Services.

To the extent permitted by law, Member also agrees that any communications from the Credit Union to Member, including any disclosures or other information required to be delivered in writing, may be delivered to Member in electronic form, and that such electronic communication shall constitute a written communication. Member is responsible for all telephone charges incurred in connecting to St. Mary's Online Banking and for charges by any internet providers Member uses to provide connection to the internet.

Email and/or text transmissions sent by Member to the Credit Union or vice versa are not secure. Member, therefore, should not transmit confidential information, such as account numbers, social security numbers, taxpayer identification numbers, balances, etc., in any email/text communication. The Credit Union may not immediately receive email/text communication sent by Member. Member, therefore, agrees not to rely on email/text to communicate with the Credit Union immediately (for example, to report a lost or stolen Password, or to report an unauthorized transaction from one of Member's Business Accounts). The Credit Union will not take action based on Member's email/text requests until the Credit Union actually receives the request and has had a reasonable opportunity to act. Member cannot use email/text to initiate transactions on Business Accounts. St. Mary's Bank will never send Member an email or text requesting confidential information such as account numbers or passwords. If Member receives an email/text purportedly from us requesting such information or asking to validate a transaction Member did not initiate, DO NOT respond to the email/text and Member agrees to **immediately** notify St. Mary's Bank's Member Contact Center by phone (see the "[How to Contact Us](#)" section for phone number).

There is a maximum dollar limit on any transfer equal to the available balance in Member's Business Account from which Member is transferring funds. Member agrees that it will review the routing and account numbers to ensure that the numbers are accurate prior to transmission. To the extent not prohibited by law, Member agrees that the wire transfers are irrevocable and that the sole obligation of the Credit Union is to exercise ordinary care in processing this wire transfer and that it is not responsible for any losses or delays which occur as a result of any other party's involvement in processing the transfer. POSITIVE PAY SERVICES

This section describes the terms under which the Credit Union offers Positive Pay Services (the "Positive Pay Service"). The Positive Pay Service can be used to identify fraudulent checks, ACH items or wires attempting to clear the Business Account(s) which Member has enrolled in the service.

Check Positive Pay Service. Allows Member to submit issued check data to the Credit Union by using a file containing issued check data ("Issued Item File") or by keying issued check data directly into the service by established deadlines. The Credit Union's system will compare the issued check data to checks presented for payment against Member's Account(s).

Member written instruction at the time of Application:

- Pay Items: If a check is presented for payment that does not match Member's issued check data, Member will be notified through the service. Member must then instruct the Credit Union to return the check. If no such instruction is received by the Credit Union by the established deadline of 11:00 a.m. (Eastern Time), the item will be paid unless other arrangements have been made with written instructions.
- Return Items: If a check is presented for payment that does not match Member's issued check data, Member will be notified through the service. Member must then authorize the Credit Union to pay the check. If no such authorization is received by the Credit Union by the established deadline of 11:00 a.m. (Eastern Time), the item will be returned unless other arrangements have been made with written instructions.

ACH Positive Pay Service. Allows Member to define Pre-Authorized ACH Debit Rules for each enrolled Business Account. These rules may include the originating company, standard entry class code, and maximum authorized dollar amount. When an ACH debit posts to an enrolled account, the established rules will determine if the item requires authorization from Member to return the item. If no such authorization is received by the Credit Union by the established deadline of 11:00 a.m. (Eastern Time), the item will be paid unless other arrangements have been made with written instructions (i.e. Stop pay has been placed).

Issued Item File. Members participating in the Check Positive Pay Service will submit an Issued Item File for each Authorized Account to the Credit Union on every business day that Member issues checks. The Issued Item File shall accurately state the check number, date, and the exact dollar amount of each check drawn on an Authorized Business Account since the last Issued Item File was submitted.

Member shall provide the Issued Item File to the Credit Union through the Credit Union's Online Banking Service in a format acceptable to the Credit Union and agreed to by Member. If the Issued Item File cannot be received by the Credit Union or the Credit Union cannot process the file because of a system failure or otherwise, the file shall be considered as not received, even if the Credit Union has possession of the file.

Issued items may be entered into the system manually if the Issued Item File cannot be provided through the Credit Union's Online Banking Service.

Payment of Presented Items and Exception Reports. The Credit Union will compare each Presented Check by check number and amount against each Issued Item File received by the Credit Union. The Credit Union will compare each Presented ACH Debit against the Pre-Authorized ACH Debit Rules as established by Member in the Positive Pay Service. On each banking day, the Credit Union:

- May pay and charge to the Authorized Business Account each Presented Check that matches (by check number and amount) a check shown in any Issued Item File.
- May pay and charge to the Authorized Business Account each Presented ACH Debit that did not cause an Exception ACH Debit.
- Shall use its best efforts to make available to Member an Exception Report by 9:00 a.m. (Eastern Time) each Business Day via the Credit Union's Online Banking Service. Member can establish automatic email alerts to be notified when exception decisions are required.

Ineligible Items. The Positive Pay Service is not available for, and this Positive Pay Service section does not apply to, checks or ACH debits the Credit Union has already cashed, negotiated, paid, presented and paid in branch, or are otherwise already committed to honor or pay under applicable laws, regulations, or rules governing such items. The ACH Positive Pay Service is not available for, and this Positive Pay Service section does not apply to, any ACH Credit items.

Positive Pay Liability. Member agrees to utilize the Positive Pay Services as presented and as agreed to in writing. In the event that the member has agreed in writing to Pay Items and does not provide pay instructions within the required timeframes as noted above shall be liable for any fraudulent or unauthorized item(s) paid. In the event that the member has agreed in writing to Return Items and does not provide return instructions within the required timeframes as noted above shall be liable for the impacts (including fees) of any item(s) returned unpaid.

Member and Credit Union Communications. Member or the Credit Union, at its discretion, may each submit to the other party a revision of any communication related to the Positive Pay Service or this Positive Pay Service section. Revised communications from Member must:

- Be sent in their entirety and not in the form of a partial amendment to the communication originally sent.
- Identify the original communication.
- Be sent in the format and medium, by the deadline(s), and at the place(s) established by the Credit Union.

In the event the above conditions are met, and the Credit Union receives and processes such communication with a reasonable amount of time to act upon such communication, the revised communication shall revoke and replace the original communication.

Member shall use only Exception Reports that comply with this Positive Pay Service section and have not been revoked by the Credit Union in the preparation of Pay Requests and Return Requests.

The Credit Union shall not be obligated to comply with any Pay Request or Return Request received in a format or medium, after a deadline, or in a manner or at a place inconsistent with this Positive Pay Service section, and may treat such a Pay Request or Return Request as though it had not been received.

The Credit Union is not responsible for detecting any Member error contained in any Issued Item File, Pre-Authorized ACH Debit Rule, Pay Request, Return Request, other communication sent by Member to the Credit Union.

If Member requires a copy of a statement that is no longer available online, then Member may be charged a fee as set forth in St. Mary's Bank's current Schedule of Fees.

Termination of Electronic Delivery. Member may terminate their enrollment in the Electronic Delivery Service at any time by contacting us. Statements and/or notices previously provided to Member via Electronic Delivery will not be provided to Member upon termination. If Member terminates their enrollment in the eStatement Service, then paper statements will resume with Member's next periodic statement.

Please note that certain deposit accounts are offered with the Credit Union's Electronic Delivery option only. If Member chooses to stop Electronic Delivery for such deposit accounts, paper delivery will be provided in the future and Member's account may be subject to certain other provisions set forth in the rules applicable to such account, which may include, for example, additional fees, reduced interest and termination. If Member cancels their enrollment in Electronic Delivery Service such services will terminate; however, termination of Electronic Delivery Service will not affect the legal validity, enforceability and binding effect of the eDelivery Terms or other applicable terms contained in this Agreement before the effective date of the termination and any continuing obligations. Termination of Member's enrollment in the Electronic Delivery Service will not affect Member's registration with St. Mary's Online Banking Service. However, cancellation of Member's registration in the Online Banking Service will automatically cause Member's enrollment in the Electronic Delivery Service to be terminated.
